Examples of people with Sun trine Uranus in their natal charts are, of course, diverse, as it's only one of a multitude of astrological factors in their charts. However, common Sun-Uranus themes are there, such as human rights activism, progressiveness, and unconventionality.

About Trines

The trine is considered an easy, harmonious, positive aspect. It's 120 degrees. Because aspects rarely occur exactly, astrologers allow a range and apply an *orb* to identify which planets count as being trine to one another.

For example, if an astrologer uses a 7-degree orb for a trine, planets/points that are anywhere from 113 to 127 degrees apart would be considered forming a trine to one another.

The nature of a trine aspect: Planets in trine support each other. Indeed, trines, by nature, are accepting. They allow us to accept others, ourselves, and situations. The talents that trines offer a person are so natural that they are almost unconscious. Often enough, people don't truly appreciate the talents these trines bestow upon them. As a result, they may not try to develop them.

With a trine between the Sun and Uranus, Uranian traits come naturally to you. In other words, there's no forcing or trying involved with expressing these traits—Uranian qualities like unconventionality and inventiveness.

Alternate interpretations:

Sun trine Uranus:

The unusual and unorthodox appeal to you, and you do not allow tradition, convention, or other people's expectations to dictate how you are going to live your life. You crave freedom, adventure, excitement, and discovery, and are not afraid of change. You possess inventive and creative genius.

— Interpretation from the **Merlin report**.

One of the indexes of long life, a strong physical heredity, and vitality. In addition to these physical qualities, you have a progressive mental outlook, strongly tinged with originality, and any plans that you organize will be pushed through with a certain dash and comprehension of total results that knits the parts together strongly. Organization, either of undertakings or of knowledge, is your strong point. You see things in the large rather than the particular.

Your originality is not tinged with the bizarre, but has a wholesome practical quality about it. Indeed, you are a very expansive person, looking at things in the large. You build strongly and forever. You always build on the grand scale, and in the grand manner, for a certain magnanimity of approach and magnificence of outlook characterizes you.

— Interpretation sample from the **Heaven Knows What report**.

"In other lifetimes, these individuals harmonized the vibrations of these two planets so that they are highly intuitive and original. There is a strong desire to be independent. This aspect gives strong electrical healing abilities because of Uranus's rulership of lightning." — from *A Spiritual Approach to Astrology* by Myrna Lofthus
