Sun opposition Uranus

Sun opposition Uranus

WHEN THE SUN OPPOSES URANUS IN THE NATAL CHART

With the Sun opposite Uranus in your birth chart, your independence is important to you. The need to be able to express who you are, without the influence of others, is not only vital, it's liberating.

others' expectations or opinions, it's essential to realize that even rebelling against these expectations is still living in their shadow. True detachment is achieved by aligning with your authentic needs and desires. Finding satisfying ways to calm your nerves and alleviate the need to fidget can lead to greater health and wellness.

Uncertainty about taking the lead in relationships can lead to problems. Giving mixed signals is a common issue until you learn to avoid rebelling. Sudden separations or disruptions in relationships can be challenging themes. However, clarity in your desires and intentions can serve as a compass, helping you navigate these challenges with a sense of security and reassurance. It can also prevent you from attracting partners who symbolize your inner struggles or who try to dominate you. Otherwise, it can be frustrating to keep meeting with people who challenge you or force you to confront your issues in disruptive ways.

You're original, strong-willed, and interesting. You fight against oppression. Scientific and objective, you are drawn to anything that spells progress and advancement. You might simultaneously crave and fear commitment. It's a good idea to work on making changes gradually rather than abruptly. As well, learn to identify where and when you self-sabotage by making rash decisions or quick breaks from situations. This may happen due to an inner need for excitement that you're not acknowledging.

You are gifted, impulsive, intuitive, and immensely talented. Channeling your enormous creativity can be a challenge, but can be richly rewarding and empowering.

While examples of people with this aspect are diverse with many different unique positions in their charts, there can be common Sun-Uranus themes, such as human rights activism, breaking ground in their fields, unconventionality, and going their own way.

About the Opposition Aspect

Note: The square, semi-square, sesquiquadrate, and *opposition* are considered “hard”, “challenging”, or “inharmonious” aspects.

With the *opposition aspect*, others both trigger our personal challenges and bring out our potential.

Oppositions represent a state of divided loyalties. Inner discontent, uncertainty, and insecurity can be a result. While a square is urgent and courageous, an opposition is unsure and wavering. However, it has great potential for increased understanding.

When we use our oppositions correctly, we are more willing to consider the other side and we can be adept negotiators.

About Sun aspects/oppositions and projection

With oppositions, *projection* is a very real possibility, and this is particularly the case with the Sun involved. For example, because the Sun is personal and Uranus is impersonal,

personalities or situations in our lives. This can be disruptive since it's better to "own" our Uranus.

If this is the case, work done on recognizing your own Uranian qualities and integrating them in productive ways into your personality can be invaluable.

Depending on the culture, generation, and conditioning, some females are taught in their early lives to identify with the Moon and "assign" the Sun to males in their lives. As such, the Sun can represent the experience of the father and/or a husband or a male figure, in general. Similarly, a male may be conditioned to assign their Moon to women in their lives, especially a mother or mother figure or if they have a female partner. In these situations, the male may readily identify with or "own" their Sun, including the Sun sign, house, and aspects.

If a person is assigning their Sun to others instead of fully owning it, projection is also occurring with the Sun-Uranus opposition. Meeting Uranian energy (abruptness, rebelliousness, unconventionality, and unpredictability, for example) through others, especially males, can be a theme.

Alternate interpretations of this aspect:

Sun opposition Uranus:

"The oppositions bring about awareness through compromise. Conflict within the opposition can involve either internal or external issues."

The kids who have the Sun opposed to Uranus have a strong need to do everything their own way. They are probably very fidgety, cannot sit still – and are prone to nervous ailments. They are highly strung. These kids are likely to be rather rebellious and resist any sort of restriction. Deep down these kids can be afraid of change, so they fight fire with fire. They feel if they instigate all the movement, then they are in control.

choice brings about criticism at all, the greater the attraction will be. These children really need stimulation and activity to feel free. Later this will reflect in a lifestyle that may be considered odd. It is important that {child's name} be allowed to make as many personal decisions as possible. This will give the feeling of trust, and, of course, freedom, and so make the household a calmer place.

Pressure from others brings out the most negative aspects of this personality. However, somewhere along the line these kids have to learn to listen now and again. They need to learn to compromise. Learn to allow other people the same privilege that they demand – a right to personal ideals and ideas – freedom of speech and action. The instinct is to think of the self first, so {child's name} must learn to listen with an open mind.

This can be the practical joker. {Child's name} might try to stir things up amongst friends and company just to make the situation more interesting. Again, there is a need to respect other people. These kids can be quite dictatorial in a rather subtle way. This will be an unusual person who will like nothing better than a challenge. {Child's name} will work very hard to be "different." — Interpretation from the **KidZone Report**.

Sun opposition Uranus:

The Sun's open energy opposed to the suddenness and secretiveness of Uranus can certainly make you nervous and "high-strung"—tense and irritable. You could feel constantly pulled in two directions. You could insist on things always being your way without really knowing what your way is, which can alienate those around you. It's also likely you have unusual talents, but not be able to use them wisely. You need to practice control of your impatience and erratic behavior in order to acquire the education and experience you will need to express your talents and ideas in constructive ways. This opposition makes for a shaky union, but if you can blend the best of both planets, it can become a tremendous asset. — Interpretation from the **Personality Profile Report**.

Sun opposite Uranus: "(The Destroyer)

Outside influences may lead you to believe that upsets are inevitable. In reality, unexpressed feelings result in tensions you find it difficult to acknowledge. You may not

relate to the universe. You are a unique individual who can invent the ways and means necessary to align yourself with the cosmos.”

— Interpretation from the **Spirit Success Report**.

“You’ve sown your wild oats – and how! Your intellectual development was a good deal in advance of your emotional development, and as a result you had ideas, notions, theories, of independence and of human relations which you put into practice, considerably to the despair of your elders. You’re a liberal in every way, with advanced social, political, and personal ideas.

Individualism is very important to you, and your own ego comes first. As you grow older this outlook broadens from the purely personal to the more general; you turn from egocentric to humanitarian, interested in large ideas, large groups of people, social problems in the large.

This is one of the aspects of idealism but on its way to that state it goes through many ramifications. You have been dejected and depressed and discouraged; probably you’ve had your share of unconventional and erratic love affairs. You always tend to be something of a romantic; no matter how much you control, or how much you learn to translate the personal into the impersonal, an adventurous spirit keeps gnawing at you.

This is the aspect of Ulysses, forever wandering the seas – even when he’s sitting by his hearth with Penelope. Translate your adventuresomeness to intellectual, rather than geographical or personal variety, and the world is at your feet.

In any case, you have a periodically explosive temper and must learn the lessons of cooperation both with the world in general and with individuals. You tend to think that you are right and all the rest of the world is crazy, which may be true but doesn’t make much of a hit with the world.”
