

Sun semisextile Venus

☉ ⋈ ♀ Sun semisextile Venus You could find that your quest for love, affection, and pleasure is often at odds with your inner drives or personal development. Your pursuit and enjoyment of pleasure may often get in the way of what you think you should be doing. This can be the source of quite a bit of stress and/or guilt until you discover ways to fulfill both of these needs without doing so at the expense of the other. Your love nature, your needs for affection and the manner in which you go about getting it, and the way you spend money tend to contradict your general personality—the person that others meet on a day-to-day basis.

Examples of this include an outgoing, even flamboyant, personality that is quite cautious and even shy when it comes to love; or the reverse: a humble person who is dramatic

personal appearance, finding it hard to find yourself attractive in the here and now, when in fact there is unlikely to be an issue.

Most any semisextile in the natal chart enhances a person's adaptability, as they are accustomed to adjusting to changing circumstances.

Alternate Interpretation:

Sun semi-sextile Venus: Most likely if you move into a new house or apartment, pictures will be on the walls and flowers in vases on the tables very soon. You feel very uncomfortable in environments that lack at least a small degree of charm and beauty. — Interpretation from Kepler.
