At any rate, they are not prone to the kinds of ups and downs that plague those with challenging aspects between the Sun and Moon. This is because their goals and their emotional needs are in harmony, despite being different.

The trine aspect is the more dynamic of the two harmonious aspects. Those with the sextile can call upon these traits when needed, and those with the trine between the Venus and Neptune have incorporated the traits of the aspect into their personalities, expressing them naturally and consistently.
