Mercury sextile Neptune Intuition runs high now. You are more sensitive artistically, your imagination is stirred, and you have an increased appreciation for subtleties. You are inspired and able to inspire others with your words. Your thinking is fanciful now. As such, this is a good time for artistic or literary projects.

It's not a good time to make a presentation, to ask for what you want, or to formalize agreements. You could find it hard to follow facts, directions, and instructions. It can be very enjoyable to dig, investigate, and probe. Fortunately, it's a good time to discover something valuable or unearth some handy information.

Mercury square Pluto This is a time when your mind is more suspicious and perhaps negative. You could find that mistrust dominates the day—whether this is something you meet in others or deal with in your own thinking patterns. For example, you might be given the third degree, or you could badger someone yourself! This transit often brings some level of mental stress and pressure. This transit can manifest as a compulsive need to talk, question, or even badger. You might be given (or give) the third degree. On the other hand, it could also bring about a strong desire to withhold information. Obsessive thinking, attempts to persuade others to think like you do, insisting on knowing the “truth” or on exposing falsehoods, making mountains out of molehills—these are the more unpleasant possibilities. Mercury opposition Ascendant Reaching out to others on a mental level figures now. Certainly, negotiations are in order, and you might feel a strong need for feedback from a significant other or special friend.

Mercury Transits to the Midheaven

Mercury conjunct Midheaven It's easy to communicate effectively at this time, as you are speaking to an audience and careful about the words you select to express yourself. You may communicate with superiors or present an idea to business associates now. In some cases, you might be in the position to speak or communicate before the public. You are especially clear-headed and rational about career matters, making this a good time to schedule business appointments or for getting (or giving) advice.

Clarity, objectivity, and a smooth flow of communication makes this an excellent time to reach a decision and/or tell others of a decision you've come to. Ideas come flooding in now, too, and you're able to assimilate all kinds of new information. All learning, teaching, or intellectual activities are favored.

Mercury opposition Midheaven You could be quite preoccupied with personal matters today, which could distract you from professional matters. Happily, it's a good time to check in with your deeper needs and examine how or whether they're reflected in your longer-term goals. Still, you'll need to be patient if you're seeking understanding—people may not entirely “get” you now.

*Communication, particularly with superiors or authority figures, could prove troublesome. You may not think like they do or may find that your thoughts even run
