efforts to project strength and deny your vulnerabilities. Your sensitivity can be your strength, but it can take you some time to recognize this, and even once you do, achieving the right balance can be a struggle. This is because your somewhat erratic expressions of strength and sensitivity can be imbalanced and ill-timed, leaving you to feel that your sensitive side gets in your way of achieving your goals. In truth, accepting this side of you and incorporating it into your personality in balanced ways may be the key to happiness.

You enjoy a bit of magic and imagination, and you find life rather boring without it. When you're inspired, you can move mountains, but when you fall, you tend to crash! It can be difficult to get out of a rut, but once you catch the next wave of inspiration, you seem to forget the lows and the lesson completely and thoroughly believe in your new dream.

Early experiences in life may have lacked a solid direction, support, definition, supervision, or mission. A weak or absent parental figure may have been part of this, and you may have had ups and downs with a romanticized image of this figure. As such, part of you may always be seeking something special or magical to replace this feeling of lack. It's a good idea to consider whether this is a problem that leads to errors and obstacles in your life.

There may be a heightened sensitivity to medication, substances, influence, and lack of sunlight, as well as an inclination to oversleeping. However, it's important to note that creative pursuits, especially when pursued on the side, can be not just helpful, but also therapeutic. They can serve as a powerful outlet for your emotions and a source of inspiration.

Alternate interpretations from our reports (and more):

Sun opposition Neptune: You are extremely sensitive, compassionate, and giving, often to your own personal disadvantage. Your ideals and spiritual values motivate you, and you cannot live only for personal gain or materialistic concerns. There must be an element of beauty, magic, imagination, inspiration or creativity in what you do. Otherwise you become listless and aimless. The arts, theater, music, and/or charitable works suit you well. — Interpretation from the **Merlin Report**.

Sun opposition Neptune: Overly emotional and often confused, you need grounding for your idealism to avoid difficulties regarding commitments, responsibilities, and expectations. You have high standards and high expectations but it takes a large amount of self-work to become more than a dreamy well wisher in the parade of life. Emotional balance and genuine self knowledge come with great difficulty but are necessary prerequisite for manifesting your spiritual and creative potential. You tend to live in a fantasy realm, full of romantic illusion. You easily attribute to others, the latent unexpressed qualities of your own being. — Interpretation from the **The In-Depth Report**.

Sun opposition Neptune: Have you ever wondered if you simply live in another world? The influence of your Sun in opposition to Neptune stimulates an amazing challenge: you have to find yourself beyond the illusion, yet you must know how to use illusion to express yourself.

One of the greatest potential traps you face involves your tendency to project your sense of identity onto others in your life. It can be difficult for others to see who you really are, especially if you are not clear about it yourself! You may think of yourself as an actor playing many roles, but when the curtain closes, you may feel lost and confused. Who are you?

your salvation in trying to save everybody else. Nor will you know yourself if you give your power to somebody and allow them to shape your life for you.

Creating a safe haven for yourself that allows you to get away from the pressures of the world is crucial. Just remember that you cannot stay there all the time and really find yourself. You need to reach out and make tangible connections. — Interpretation from the **Profile for Women Report**.

From the Body & Soul report: Sun opposite Neptune indicates an ethereal body that is weak and lacking vitality. There is a porosity to the aura which needs hardening or strengthening with regular doses of pure sunlight. It also indicates susceptibility to be influenced by the dead or nature spirits. This aspect also indicates the native is liable to be swindled and easily deceived. It indicates those who may often be at a loss to explain how and why their problems occur.

PATHOLOGICAL TENDENCIES: Lymphatic stasis; lowered vitality, a frail body taking a long time to heal; thymus insufficiency and reduced immunity; sensitivity to drugs and medications often requiring the native take 1/2 the usual dose; continuous colds and flu, swollen glands, ear/eye/nose and throat infections (strep and staph); tendency to oversleep; tendency to overeat, cravings for sugar, weakened digestion; anemia; nervous breakdowns.

NUTRITIONAL ASPECTS: Deficiencies of magnesium, vitamin D (the native should get regular exposures to vital sunlight), iodine. The health is reduced by consumption of rancid oils and greasy foods. The native is benefited by taking antioxidants, and live cell thymus and thyroid injections.

BENEFICIAL FOODS: Tea, whole grains, fresh fruits and vegetables.

KARMIC TENDENCIES (rare): Poisoning; overdose.
