

Mars – Pluto Aspects: Conjunction Sextile Trine Square Opposition

MARS CONJUNCT PLUTO

Your ability to commit yourself to a task or goal is tremendous. When inspired, you are able to draw upon great stores of strength and determination. You can be so single-minded and focused that you readily lose yourself in a particular task, possibly to the point of obsession!

You can be very skilled at investigation and research. Quite automatically, you are interested in what motivates and drives others, which can make you a natural psychologist. You might find that you constantly challenge yourself to take on more and to do more. Aim to watch this tendency if it seems to take over your life, as you may

You don't take kindly to others' attempts to bully or push you, and you can be extremely stubborn when pushed. You are always especially aware of, and sensitive to, others' use of power and authority. Resentment can be a problem and letting things go can be very challenging. Your gut reactions are rather intense and emotional in quality. As you mature, you are likely to learn that detaching yourself a little helps you to be more objective and constructive.

You might have some fear of your own anger, assertiveness, power, and drive, particularly early in life if your intense nature has been misunderstood. You are not always forthcoming about your intentions and plans, and you typically strategize well in pursuit of a goal rather than go after what you want loudly and directly.

While this means you can out-manuever practically anyone, and although your determination is admirable, you might watch for a somewhat paranoid tendency to keep your plans to yourself if this stems from fear that your intentions will be misunderstood.

Whether or not you choose to take advantage of others is entirely up to you. There is an "all or nothing" quality to your nature. You put your heart into whatever you do, and although breaking ties or ending things can be challenging, once you've done it, there's no going back.

You possess a fascinating, alluring, and even commanding aura. You prefer that others see you as strong and in control. Allowing trusted people to see your more vulnerable qualities can take time.

Your strong desire to make things happen through your own efforts can bring you much success. "What will be, will be" is certainly *not* your motto. However, this same quality can sometimes limit you, as you would benefit from more detachment and the discovery that some things can't-or shouldn't-happen just now.

#At some point in your life you may feel that the gods or goddesses step in to impose changes on you. What you make of these moments determines your spiritual future.

MARS SQUARE OR OPPOSITION PLUTO

This is a powerful aspect in a natal chart suggesting, in your life time, you very often see extremes of behavior and experiences, or go through crises more than most. You may be no stranger to violence or abuse. You learn, through your experiences, self-control and self-awareness so that you are better equipped to deal with these extremes.

Wonderful to have around in times of crises, you can quickly take the lead and you can be undaunted when it comes to defending or helping those you love. Your desires are deep, intense, and sometimes troubling.

rather provocative. You are a natural-born fighter. You can also be quite driven to find answers, and you make a good psychologist, analyst, and investigator. Compulsive behaviors should be watched carefully, as they can consume you and lead you to risky endeavors and difficult scenarios. There can be a strong desire to be in control.

You have a tendency to impose your will upon others, which can cause severe problems for yourself when they react in self-defense. You have a hair-trigger temper and may even resort to verbal or physical abuse when upset. Learning to react to unpleasant circumstances with your intellect rather than your emotions comes with maturity. It's also possible that you experience many extremes in life, and that you are on the receiving end of difficult tempers more than most.

It is all too easy for you to find something negative about a situation. Avoid issuing ultimatums when you meet an obstacle. Instead, find a way to convince others to work with you of their own free will. Ordinary life often seems drab and uninteresting to you and you must have something that stirs your imagination, some vision or ideal or dream to motivate you. You have a strong urge to act out your fantasies or to live your dream, and you will DO things that others only talk about or dream about. Artistic creation, drama, or other areas in which you can express yourself imaginatively are excellent for you.

You do not easily tolerate a dominating attitude in others. You have a healthy respect for power and authority, but only if it is handled fairly.

This aspect gives you a somewhat Scorpionic attitude toward your lovers, and it can modify the traits associated with the sign of your Mars considerably. In other words, there is a distinct possessive and demanding streak in your sexual nature. Your approach to love and sex can be quite intense at times. Your sexual desire nature is a very strong one, and you may even use sex as a bargaining chip in your relationships in order to achieve your goals.

More likely, however, is a very focused and intense sexual nature. This also adds a very magnetic quality to your appeal. When someone finds you attractive, it can transform into a near obsession! Your aura is strong and somewhat mysterious.

intimidated by you, and you may not understand why this is so. When you want something (or someone!) you are very determined. For you, it can be “all or nothing.” When you are finished with something, you leave it behind you and there is no going back.

You want a deep, soulful attachment on a sexual level. In your love life you do not take rejection well. You fear betrayal and abandonment, and this can skew your perception of your lover. You have a highly developed sex drive, but you must learn to rein in your aggressiveness in this area. Power struggles and control issues may surface often in your relationships. — Interpretation from our [LoveStyles: About Him Report](#).

#You perceive the cruel edge in people, and understand its source. As you deal with your own ruthlessness, you learn how to respond to it in others without risking your physical well-being. Self-confidence develops out of self-control in your interaction with others.

MARS SEXTILE OR TRINE PLUTO

This Mars-Pluto aspect adds a layer of intensity, strategy, and resourcefulness to the personality. You are committed, determined, and passionate. For you, it’s all or nothing,

Certainly a passionate person, you possess a fascinating and commanding aura. You are self-motivated, physical, and generally confident in your talents. What sets you apart from others is your easy relationship with your subconscious, deeper desires, and ambitions. You're satisfied most when you're regenerating or transforming yourself or circumstances.

You employ strategy when going after something, and you are very talented at this, saving time and energy. While you are perfectly capable of outwitting others as a natural psychologist, whether you take advantage of this skill or not depends much on other factors in your natal chart.

You're naturally very resourceful and usually quite persistent when pursuing a goal. You are a wonderful person to be around when there's a crisis—very little fazes you, and you're especially effective when circumstances call for a leader. No one can bribe or manipulate you, either. It's not easy to get one past you.

You innately understand passion, anger, and complicated desires and power dynamics. Generally, you can channel these things well. Your courage is also innate—you can draw upon it when needed, especially to stick up for yourself or others or to do what's required in order to carry on. More readily than most, you'll get your hands dirty if absolutely necessary. People can count on you not only in times of crisis or problems but also for unquestioned support for embarrassing or complex matters.

When motivated, you're determined and focused. You have staying power! What's under the surface of things, hidden, buried, or misunderstood intrigues you. A natural detective and strategist, you don't always follow a straight line. You are uncomfortable with things done halfway or half-heartedly.

In relationships, you seek depth, rawness, ecstasy, passion, and intensity. Superficial connections are of little interest to you. This aspect in your natal chart boosts your personal appeal and magnetism.

sextile can call upon these traits when needed, and those with the trine between the Mars and Pluto have incorporated the traits of the aspect into their personalities, expressing them naturally and consistently.

Alternate, short interpretations:

When difficulties arise you prefer to avoid conflict and confrontation in favor of more peaceful or subtle methods of resolving problems. Working to help others or for a cause that transcends your own narrow, personal interests is satisfying for you. You have an artistic flair and appreciate the colorful, unique, or strange.
