

## Sun sextile Jupiter

Sun sextile Jupiter

**☉ \* ♃ Sun sextile Jupiter/Sun trine Jupiter** Endowed with generosity and friendliness, these people appear to be lucky in life. They attract good things with a positive frame of mind and a charitable disposition.

usually well-received, helpful, and well-informed. Usually, they enjoy travel and have a special affection for foreign places and people. They're generally not very competitive people, and for the most part not combative either. As a result, they are usually well-liked.

These people are usually good-hearted with strong morals and much faith in life and in people. They prefer to find good in situations and in people! As they generally believe in order, equality, and the law, they don't have a lot of patience with those who break the rules.

Sun-Jupiter people generally make good on their promises, and the sincerity they exude can be trusted. Looking on the bright side is their forte—turn to these people for a pleasing dose of faith and optimism. They are quick to chuckle and can't resist any appeal to their sense of humor.

Some people with this aspect in their birth charts are downright *jolly*. Others are less conspicuous, but their faith in life and willingness to find humor in life are nevertheless obvious.

## Alternate interpretations:

**Sun sextile Jupiter:** Your life is apt to be blessed with more than your share of helpful friends, fortuitous connections, and doors opening to you at just the right time. Because you are usually willing to share and to give back to others in a generous way, you continue to generate successes in your life no matter how unfortunate prevailing

**Sun sextile Jupiter:** Your child is bent toward success, for he has a built-in sense of how to approach and unravel even the most difficult problems. Children born with this harmonious aspect often have a natural instinct for justice and the law, and generally know how to approach a problem from just the right angle.

This ability could make your child a natural counselor or guide for others, in particular regarding vocational matters. Sun-Jupiter sextile also suggests the possibility of working with and helping older persons. Often this position indicates help received from others.

Dynamic squares found elsewhere in the chart may bring out the positive sides of this position. The pitfall is too much ease, or a lack of ambition, a lack of humility, and/or expecting others to do the work. — Interpretation from the **Child Star report** (Boy).

**Sun sextile Jupiter:** You find that spiritual discipline is as much a container for your being as it is the expression of your inner desire. Your perception of duty is to develop the endurance needed to weather emotional and material storms. — Interpretation from the **Your Spiritual Path report**.

**Sun sextile Jupiter:** You have a sense of justice and an innate ability to understand the law, whether natural or manmade. Showing others the way through or beyond the problems in their lives comes easy, for you sense how to manipulate the opportunities of life. Lucky. — Interpretation from Zet Software.
