You're less likely to be objective and prone to changing your mind frequently, so it would be better to postpone important decision-making. This is not an ideal time for publicity, promotion, or legal matters. You are more sensitive to injustices (or perceived injustices), but you should avoid behavior that is self-righteous or haughty. Don't get your knickers in a knot over simple differences of opinion. Self-indulgence is more likely now. An increased need to be with people, to socialize, and to compromise are featured during this transit. More attention to physical appearance and attractiveness, as well as graciousness, could also figure. You are in the position to learn much about yourself by listening to others. The need to create or maintain a harmonious environment dominates now, but getting to that point can entail some conflict! Feeling emotional about your relationships could also figure now.

Moon transiting the Eighth House

There can be a hunger now for deeper experiences and more powerful bonds. Emotional commitments come into focus during the 2-3 days of this transit. You are looking for more meaning in your life, and any activity that stirs your emotions attracts. On a more mundane level, money and possessions could be emotional issues now. Be aware that you could over-react to matters during this transit, finding it hard to detach yourself emotionally in order to look at life objectively. You are not as sociable during this brief trend, preferring to analyze and feel out your life's circumstances than to put yourself "out there".

Moon transiting the Ninth House

or movement and expression, but mental and spiritual freedom as well. The emotional need now is expansion and growth. You do not want to be limited by boundaries or barriers. This is a more gregarious placement of the Moon. Independence, new experiences, and intellectual growth are the major focus. This is a more sociable and gregarious transit of the Moon. Stronger social awareness and a desire to belong to a group may figure now, although sometimes it's more about expressing your own individuality and breaking the rules. Networking is the keyword for this 2-3 day period. It's a good time to spend with friends or groups. However, you are more sensitive to the moods of those around you, and you could be feeling emotional about your sense of belonging (or lack of) with like-minded people.

Moon transiting the Twelfth House

Heightened sensitivity and an emotional need to connect with your inner world is dominant during this 2-3 day transit.
