Circumstances and others tend to be less supportive than usual, and you might find you have to push yourself harder to achieve the same results you would on other days of the month.

This is not an ideal time for new enterprises or undertakings. Inner restlessness may take you out of your typical routine. You are more inclined to become "stressed out" now and more inclined to catch a cold or to feel slightly under the weather. Relationships with others may be strained for the time being. This is a good time to uncover issues of emotional unrest that have been bubbling under the surface, and to take steps to take better care of your emotional needs.

### **Sun trine Moon**

This is a time when you handle opportunities that come your way very well. Achievement is smooth. Recuperative powers are increased. Positive new connections may be made now. ### **Sun opposition Moon**

You take things more personally now, and issues that have been stewing beneath the surface reveal themselves now. This is a period when you are more inclined to be immature or childish if you have not been managing or acknowledging your emotions in a healthy manner to date.

On the negative side, your relationships with others could be strained. You could be feeling less vigorous than usual or more stressed. You might find that you attract challenging situations simply because you are overreacting emotionally.

## Transiting Sun to Natal Sun Aspects

### Sun conjunct Sun

It's time to celebrate as a new solar cycle begins. Pay close attention to your overall mood as well as to any insights you have now. Concentrate on what you want from your life, and where you want your life to head. How you handle today impacts the kind of year you have ahead of you.

This is the actual date and time of your Solar Return. You may wish to do something special at this hour, such as a meditation ritual. The steps you take today determine your path for the next year. This is the beginning of a new year for you, and you feel charged with new energy, vitality, and sense of purpose. Make this day an excellent one, as the energies you feel today can be somewhat of a "stamp" for the year ahead.

### Sun sextile Sun

This is a good period for dealing with others in general, but particularly on professional levels or with those in charge. Self-expression flows smoothly without social faux-pas or hiccups. Increased vitality and self-confidence come from a sense of peace on both body and spirit levels.

You might find you have to push a little harder during this transit than you normally would. Obstacles in your path tend to arrive now, although you are capable of turning them into positive energy. Challenges you face now are actually quite revealing if you look at them as learning experiences.

### **Sun trine Sun**

This is a period when ego-gratifying circumstances are highlighted. You receive some sort of boost to your ego and confidence, perhaps through some form of recognition, however big or small. You are likely to feel energetically supported by others and by life's circumstances. Battles of will could occur now. Don't stress or strain—pushing your agenda on others is unlikely to do anything except cause friction.

### **Sun opposition Sun**

This is a time of the year when you are more likely to catch a cold or to feel under the weather, unappreciated, and generally ill at ease. Tensions with others can come from a lack of self-confidence or a sudden awareness of unfulfilled wishes and goals. You are unlikely to feel on top of your game now, so don't push matters. Instead, take time for rest and relaxation. Review your goals and revise them if need be.

## **Transiting Sun to Natal Mercury Aspects**

### **Sun conjunct Mercury**

You are especially sharp, communicative, and open at this time, as your wants are aligned with your thoughts. You tend to think and act automatically, and you could come across as an "open book" now, even if your nature is not especially forthright. It's a favorable time for solving problems. For the most part, you are on the ball.

Circumstances are such that you need to adapt, adjust, communicate, or travel. Transportation and movement, in general, are issues now.

Because it's easy to rationalize your behavior, it's a favorable time to work on improving your skills. You tend to say what you think now. Keep in mind that what you say or write

### Sun sextile Mercury

During this transit, you find it easier than usual to rationalize your own behavior and that of others. It's an excellent period for improving your skills and for opening up discussions on topics that you normally might sidestep. Dealing with details may be necessary now, but also quite easy to do. Intellectually, you are sharp and generally on the ball. It's an excellent time for taking tests or presenting your ideas. Your opinions and thought processes are generally well-received and appreciated now.

### Sun square Mercury

Circumstances are such that you need to adapt and adjust, deal with nagging details, and/or run a number of errands. You may have a hard time concentrating on any one subject. Either you are easily distracted or a whole slew of information and demands are thrown upon you at once. Nervous tension is a potential by-product. It may be challenging to get in touch with what you truly want to do as you tend to live in your brain rather than your heart for the time being.

### Sun trine Mercury

You can translate your thoughts into actions readily now—decisiveness helps you to say what you think and think what you say. Improving your skills also comes naturally and easily. Taking tests, making plans, presenting your work or ideas, and communications of all kinds are favored. Others tend to value your opinions and ideas under the influence of this transit. It's a favorable period for business transactions, launching a mental pursuit or communications project, or going on a short trip.

### Sun opposition Mercury

This could be a time of nervous tension due to overactive or upset schedules. As well, you could feel slighted as a result of others misunderstanding what you communicate or get offended over a difference of opinion. You may experience anxiety or worry over mundane affairs. It's best not to schedule tests or presentations now, as you can easily overlook important facts or find that you are easily distracted.

New ideas or projects initiated now may not come to fruition. A change of mind down the road is likely. Take care in your personal and professional communications—you can too easily misrepresent yourself with what you say or write now.

## Transiting Sun to Natal Venus Aspects

### Sun conjunct Venus

This transit stimulates your love nature. This is a good day for expressing yourself creatively through relationships or other pursuits. You want to be the center of attention right now, and you are feeling more vulnerable to how others receive you, so you may pay special attention to your charm and appearance or mannerisms. You might make some social contacts that benefit your career or life direction. Women could figure prominently in your life during this period, and relationships with females are generally smooth and pleasing.

"All things Venus" are brought to your attention—romantic feelings, material wants, and pleasurable activities, to name a few. Watch out for over-spending, as you may feel a greater than average need to please or pamper yourself. As long as it is done in moderation, enjoy this focus on yourself and your wants!

### Sun sextile Venus

Some social networking is likely to occur now. Pleasurable activities are emphasized, and relationships with others tend to be gratifying and agreeable. It's an excellent period for negotiations and smoothing over of differences. Although there are better transits for personal magnetism than this one, you do tend to easily attract positive attention and circumstances now. Financial matters are generally favored.

### Sun square Venus

You might be particularly irritated by others' behavior now, but consider that problems encountered now could be a reflection of your own inner discontent. Do your best to control yearnings for more than what you have, and avoid overindulging or

## Sun trine Venus

This is a pleasing influence for harmonious contact with others and for prosperity in general. Expressing yourself creatively through relationships or other pleasurable pursuits is favored now. Your personal charm is natural and well-received now, making this a good time to be amongst people.

## Sun opposition Venus

Ego reactions to feeling underappreciated are quite possible now. This is not the best time for ego stroking on social and romantic levels. You may not appreciate how others are handling you just now. Pushing it won't solve any problems. In fact, lonely or frustrated feelings that might arise now are likely a reflection of your own inner discontent. Getting in touch with what is making you feel down could help you to solve problems now. This is not the best time to ask for what you want.

## Transiting Sun to Natal Mars Aspects

### Sun conjunct Mars

This is one of your most courageous and animated periods of the year. How you handle the energy at your disposal is the key to the kinds of outcomes you'll experience. You're not going to wait for anyone now. This transit rids you of inhibitions, at least for the time being. This is a time of much enthusiasm. Acting on things you have only entertained on a mental level is probable.

With the Sun placing its spotlight on Mars—the planet that rules anger, assertion, sexuality, and competitiveness—you can learn much about your desire nature and how you handle anger. If you find yourself lashing out at others, arguing, or unreasonably stressed out, then you know you haven't been managing your desire nature well. Use the blast of energy constructively by tackling projects that require a lot of drive and physical stamina. Even things like heavy housework, gardening, or a trip to the gym will do you well.

You are able to creatively solve problems and to instinctively take action when necessary under the influence of this transit. Stress is eased as you feel confident about your abilities and your judgment. You are more able to assert yourself without rubbing people the wrong way just now. Indeed, you might find that you stand up for yourself or your principles. You are progress-oriented, and your more passionate nature comes to the fore.

It's time to take the initiative, to apply your confidence and energy to something constructive. This is a period in which you are living spiritedly, indulging your desires without going overboard, and acting spontaneously. You are bound to feel energetically supported by the circumstances of your life and by the people around you now.

### **Sun square Mars**

You have "spring fever" now, no matter what the season! You could find yourself driven by a restless desire to do something; but without a well-defined goal, you tend towards impulsive actions and get yourself into needless arguments. Circumstances spur you into action. Your more passionate nature comes to the fore. You could be a little too eager to impress others with an aggressive or inappropriate stance, or you may find yourself competing with others in unhealthy ways. You can easily rub people the wrong way and instigate conflicts.

As long as you channel this excess energy constructively, instead of wasting your time arguing, you can accomplish much. If this transit plays out as bursts of anger and frustration, instead of decisive action, then you know you are not handling your desire nature efficiently and you should make necessary changes.

### **Sun trine Mars**

You are living life with spirit just now, and your energy and vitality are strong. The natural confidence that you exude during this transit doesn't come across as offensive. In fact, your enthusiasm is well-received. It's a good time to take the initiative and to act on things that you've only been thinking about doing. You are drawn to physical activity, and if you are involved in a competitive event, you are more likely than usual to come out a winner. Effective decision-making is possible now. This transit whets your sexual

## Sun opposition Mars

Careless or impulsive behavior can be a problem under this transit. You could find yourself feeling thwarted, frustrated, or restless. This is likely due to the fact that you are not in touch with what it is you really want at this time. If you do know what you want, how to go about getting it doesn't come naturally to you right now.

A tendency to fly off the handle characterizes this transit, due to inner tension between your will and performance. It's hard to find satisfaction or a sense of peace at this time. You may feel decidedly "out of sorts." Conflicts with superiors could arise now, but are unlikely to yield desired results. Watch also for hasty actions that could result in minor injury or stress.

## Transiting Sun to Natal Jupiter Aspects

### Sun conjunct Jupiter

You might hunger for increased recognition and respect, and, with your generous attitude and concern for others' well-being, you might just get them! This is a good time to take steps to grow something—your business, your significant relationships, and so forth. This transit also favors legal, educational, religious, and cultural endeavors. You seek a larger range of experience. Your actions are benevolent, your attitude is enthusiastic, and your style is dramatic.

This transit suggests you now have a stronger sense of who you are and the principles you represent. The realization of a long-term goal may come now. You may gain honor or distinction in some way. This is an excellent time to begin a self-improvement program. This is not an especially sexual energy—you are more inclined to philosophize and seek out bigger and better experiences. You may be particularly generous, and perhaps indiscriminately so.

### Sun sextile Jupiter

marketing, publishing, and advertising, as well as any self-promotion activities. You may be especially sociable, tolerant, and generous. Confidence comes from a stronger sense of who you are and the principles you represent. Some form of recognition or distinction is possible now. ### **Sun square Jupiter**

You may feel vague restlessness and discontent with life as it is. You want more than what mundane existence offers, but perhaps too much. Overestimation and exaggeration are possibilities, either in your own attitude or in the circumstances and people you attract now. Your mood may be elevated, but somewhat unstable as the source of your enthusiasm may not be based on reality.

Take care that you don’t throw practical considerations out the window. Avoid promising more than you can deliver, as you are unlikely to be able to follow through on your promises. Sincerity and honesty works best for you now. This could be a period in which you realize a long-term goal. Your enthusiasm is boundless, and you are inclined to take the high road in your dealings with others. Health and vitality are strong. An opportunity to take a trip or to embark on an adventure, however big or small, could arise now.

Conflicting urges with regards to what you think you should do and what you want to do can be frustrating now. There can be a tendency to go overboard and to indulge in extravagances. Watch that you don't overestimate your capabilities now. The desire to experience something new, or the desire for more freedom to explore new possibilities, can amount to restlessness if you don't know what it is you want. Over-optimism can lead to losses or waste.

Avoid boasting and indiscriminate generosity. The desire for something "bigger and better" could take hold now, but try not to throw practical considerations out the window in your pursuit.

You may feel overworked; alternatively, you might welcome some discipline into your life. Avoid launching new projects, particularly financial ones, for the time being, as progress may be slow. Instead, work on a new plan for creating order in your life, or on an old project that requires a new commitment.

Serious matters may grab your attention now, or circumstances are such that you are required to show your more competent and responsible side. Self-restraint is characteristic of this influence. You may crave more privacy and solitude now, and you could easily resent others' interference. If handled poorly, you could be downright cranky!

Because it's not your most attractive time of the year, you might want to avoid scheduling self-promotion or personally important events during this period. Emotional energy is not enough to fuel you for the time being; thus you could feel sapped on a physical level.

### **Sun square Saturn**

It's too easy to feel discouraged, but remember that discouragement is a major time waster, unless it motivates you to get back on your feet. Gratitude isn't forthcoming right now, so it's best to wait it out rather than waste energy letting it get to you.

Sacrifices may be necessary now. You might have to face failures or inadequacies. As you face obstacles to your goals, you begin to see the tools you have to overcome them. A heavy dose of realism seems forced upon you during this influence, but your efforts to measure up to expectations can ultimately increase your confidence in your ability to be responsible for yourself. Encountering obstacles to progress and inhibitions in your own attitude are prominent under this influence. You could be plagued by a feeling of not being good enough. Lack of faith in yourself, in others, and in life itself could put a damper on your initiatives. This is a time when others don't seem to notice your efforts, when progress appears to be minimal if at all, when nobody seems to extend their hand to you, when you need to go it alone and you could feel resentful for it! Life doesn't seem to be playing in your style.

Because this is one of your less attractive and magnetic periods of the year, you might want to avoid scheduling personally significant activities, job interviews, or self-promotion efforts during this period. Although there is a positive side to every aspect, while it's happening, this one doesn't feel very good. ### Sun opposition Midheaven

\*You could experience challenge or even downright opposition when it comes to matters of your job or practical skills. Someone may challenge or question your authority. You may find yourself oriented more to the family and home at this point. Relations with men, people in authority, or father figures are featured today. You may be thinking about past successes or failures and how those influence what you aim for now. There may be some friction between your will and someone else's and a need to humble yourself in order for things to proceed. Seek win-win situations.
